PROTON MOTOR POWER SYSTEMS PLC

Released 07:00:07 16 November 2020

RNS Number : 3514F
Proton Motor Power Systems PLC
16 November 2020

16 November 2020

Proton Motor Power Systems plc

("Proton Motor" or the "Company")

New Order

Proton Motor Power Systems plc (AIM: PPS), the designer, developer and producer of fuel cells and fuel cell electric hybrid systems with a zero-carbon footprint, announces that it has received an order for its newly released product PM Frame, which is available in power level intervals of 21, 28, 36 and 43 kW to work as an uninterruptible power supply unit (UPS).

The system will be installed as a UPS system within road tunnels. Road tunnels have to be equipped with UPS systems for safety reasons to power, in the event of an accident or grid failure, the necessary equipment such as lighting, air ventilation, and safety equipment for a temporary period.

Fuel cells in combination with hydrogen have advantages compared to batteries and diesel gen sets with regard to service and maintenance, energy density, availability and are totally emission free.

This initial unit is the first of a potential of 300 units from this customer.

Dr. Nahab, CEO of Proton, commented: "This is excellent news for Proton illustrating demand for hydrogen fuel cells to provide stand by clean hydrogen driven energy instead of diesel within the road infrastructure segment."

About Proton Motor Fuel Cell GmbH

Proton Motor has more than 20 years of experience in Power Solutions using CleanTech technologies such as hydrogen fuel cells, fuel cell and hybrid systems with a zero carbon footprint. Based in Puchheim near Munich, Proton Motor offers complete fuel cell and hybrid systems from a single source - from the development and production through the implementation of customized solutions. The focus of Proton Motor is on back-to-base, for example, for mobile, marine

and stationary solutions applications. The product portfolio consists of base-fuel cell systems, standard complete systems, as well as customized systems.

Proton Motor serves IT, Telecoms, public infrastructure and healthcare customers in Germany, Europe and Middle East with power supply solutions for DC and AC power demand. In addition to power supply, SPower also offers solutions for Solar Systems as well as a new product line for Solar Energy Storage.

Proton Motor Fuel Cells GmbH is a wholly owned subsidiary of Proton Motor Power Systems plc. The Company has been quoted on the AIM market of the London Stock Exchange since October 2006 (code: PPS).
